

# 2015 Annual Report

For 91 years this fire department has existed to provide for the residents of the Kennebecasis Valley. From a volunteer department with a small chemical truck to the fire department we are today, we still serve the same purpose – keeping you safe. As demonstrated by the picture above, you can see that not only do we fight fires but also respond to accidents, on and off-road rescue, medical emergencies, and water rescue on ice and open water.

**Our vision** is to be recognized as a first-class fire service that protects people and property contributing to the prosperity of the communities in the coverage area.

**Our mission** is to protect people and property by ensuring public safety and efficient fire protection and prevention.

**Our goal** is to ensure that facilities, services and personnel provide safe, superior and cost-effective fire services and emergency response tailored to the needs of the coverage area.

## Message from the Fire Chief

As your fire chief I am focused on the goal of providing you with a superior, cost-effective fire service.

**Effectiveness** and **efficiency** are the performance goals the Joint Board of Fire Commissioners have adopted. By protecting people and property we can demonstrate our effectiveness. By using your tax dollars carefully to deliver services designed for the needs of the community we can demonstrate our efficiency.

### Let's look at how we protected you and your property in 2015:

- Zero civilian injuries or fatalities related to fire in 2015.
- 105 fires extinguished.
- 120 motor vehicle collisions attended.
- 634 requests for medical assistance answered.
- 42 threats to public safety mitigated.
- 20 homes inspected.
- 76 visits in the community including special events and school fire drills attended.

### Is our service cost-effective?

We are responsible for protecting nearly 11,000 private households and more than 300 commercial buildings with a combined assessed value of approximately \$2.8 billion. Your fire protection costs per \$1,000 of assessed value are the lowest among the nine

largest municipalities in New Brunswick. In fact, Rothesay and Quispamsis are the only municipalities among that comparator group with a fire protection cost below \$1.60 per \$1,000 of assessed value.

(Quispamsis \$1.58/Rothesay \$1.49)

During 2015, \$11,835,500 of property was threatened by fire yet only 11% of that value was actually lost. Your investment of approximately \$4.5 million into fire protection helped to save \$10,489,550 in assessed property value. Please turn to page 19 to find more detailed statistics regarding our performance in 2015.

Our performance goals are important but what is most important to me are the members of this department. In the pages that follow you'll see how they contribute to making the Kennebecasis Valley such a great (and safe) place to live. From creating an amazing experience for a special little girl, to raising funds for worthwhile causes, to just being there to help when it's needed - our firefighters work hard to keep you safe - all day and night, every day of the year.

Please enjoy reading and learning more about the Kennebecasis Valley Fire Department. If you have any questions or concerns, please feel free to contact me at 848-6649 or by email at [kvfireland.kvfd@nb.aibn.com](mailto:kvfireland.kvfd@nb.aibn.com)

Bill Ireland - CFO, Fire Chief

## Our Members

The Kennebecasis Valley Fire Department responds to over 1000 calls annually and participates in dozens of community events each year. Our 40 firefighters, 14 volunteers, 4 management and 2 administrative staff make this possible.

In 2015 we had another long-serving member retire and also welcomed new faces into the department. Firefighter Paul Broderick retired after 45 years with our department and in June of this year we had firefighters Scott Hatt, Keith Gallant, and Arthur Cull join our ranks. Two of our firefighters, Anthony Storey and Craig Buck, moved on to join the Fredericton Fire Department, and Brad Ingersoll joined the Riverview Fire Department. We wish them well in their careers.

### BOARD OF FIRE COMMISSIONERS

Chair – Libby O’Hara  
Vice-Chair – Blair MacDonald  
Treasurer – Kirk Miller  
Pat Gallagher Jette  
Robert McIntyre  
Katrina White  
Brian Shanks  
Roger Young

### ADMINISTRATIVE STAFF

Bill Ireland, Fire Chief/CEO  
Carlene MacBean, Executive Assistant  
Corinne Carpenter, Accountant  
Bruce Smith, Chaplain

### COMMAND STAFF

Dan McCoy, Deputy Fire Chief  
Kevin Clynick, Platoon Chief (A + B Platoons)  
Michael Boyle, Platoon Chief (C + D Platoons)

## Station 1 – Rothesay

Captain Bill Gentleman  
Captain Mark McCully  
Captain Paul Thompson  
Captain Roger Finlay

Senior Firefighter Paul Nixon  
Senior Firefighter Shawn White  
Senior Firefighter Grant Graham  
Senior Firefighter Bob MacLeod

Firefighter Dan Richard  
Firefighter Rob Hamilton  
Firefighter Karey Madill  
Firefighter Eric Boyle  
Firefighter Joel Armstrong  
Firefighter Bruce Leblanc  
Firefighter Karen Trecartin  
Firefighter Scott Carr

Holiday Relief Firefighter Harry Ludford  
Holiday Relief Firefighter Arthur Cull  
Holiday Relief Firefighter Justin Cowan  
Holiday Relief Firefighter Chris Mason  
Holiday Relief Firefighter Keith Gallant  
Holiday Relief Firefighter Scott Hatt  
Holiday Relief Firefighter Nathan Garrett

## Station 2 – Quispamsis

Lieutenant John Codling  
Lieutenant Reg Verner  
Lieutenant Doug Barrett  
Lieutenant Jim Leblanc

Firefighter Keith Scichilone  
Firefighter Paul Spinks  
Firefighter Mike Nixon  
Firefighter Nick Arsenaault  
Firefighter Shane Day  
Firefighter Andrew Boyle  
Firefighter Scott Dunbar  
Firefighter Andrew Steeves  
Firefighter Nathan Ashfield  
Firefighter Shane Johnson  
Firefighter Don Kearney  
Firefighter Matt McCully

We want to extend our gratitude and appreciation for your team of firefighters that arrived at our home after our 911 call. Our 1-year old daughter was having seizures and we felt so helpless and panicked. The firefighters were so knowledgeable, so kind and took such care of our baby girl. Thank you for taking care of people like us in your community.

## Fireground Incident Technicians

*The Fireground Incident Technician is a volunteer position that supports fireground operations by supporting command staff with accountability, the role of a Chief's aide, and air management. Training is held every second Tuesday evening at Station 1.*

Mark Braydon  
Ed Gaynes  
Brandon Ferguson  
Ryan Kennedy  
Stephen Noseworthy

Firefighter Paul Spinks

### **Municipal Government & Service Delivery**

Senior Firefighter Shawn White

### **Fire Service Strategic Planning - 1**

Senior Firefighter Shawn White

### **Station Officer - Dealing with New Operations**

Senior Firefighter Mike Nixon  
Firefighter Don Kearney  
Firefighter Paul Spinks

### **Station Officer – Dealing with People**

Senior Firefighter Mike Nixon  
Firefighter Don Kearney

### **Child Car Seat Installation**

Lieutenant Doug Barrett  
Firefighter Karen Trecartin  
HR Firefighter Justin Cowan

### **Application of Major Fire and Life Safety Requirements for Fire and Building Inspectors – RJ Bartlett Engineering**

Platoon Chief Mike Boyle

### **Fire Inspector Level I**

Platoon Chief Mike Boyle  
Lieutenant Doug Barrett  
Lieutenant Jim LeBlanc

### **Aerial Apparatus Operator**

Firefighter Shane Johnson  
Firefighter Andrew Steeves  
Firefighter Shane Day  
Firefighter Joel Armstrong  
HR Firefighter Nathan Ashfield

### **Atlantic Fire Department Information Conference**

Senior Firefighter Robert MacLeod  
Firefighter Keith Scichilone  
Firefighter Matt McCully  
Firefighter Bruce LeBlanc  
Auxiliary Member Brandon Ferguson  
Auxiliary Member David Dickeson

### **Ice Rescue Technician/Trainer**

Senior Firefighter Paul Nixon

### **Leadership Foundations – University of New Brunswick**

Platoon Chief Mike Boyle

### **Strategic Change Leadership – Michigan State University**

Fire Chief Bill Ireland

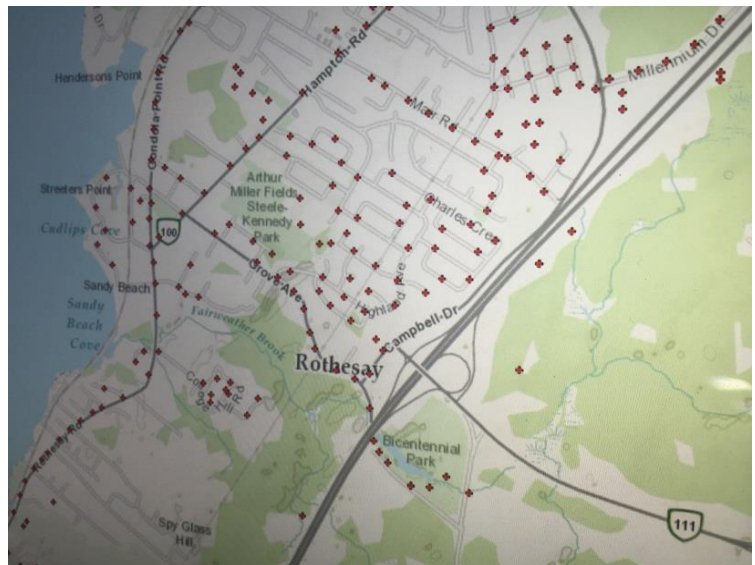

## Protection

We exist to keep you safe and respond to over 1,000 emergency incidents annually. Working out of two fire stations, at 7 Campbell Drive in Rothesay and 12 Civic Drive in Quispamsis, the Kennebecasis Valley Fire Department provides coverage for a population of approximately 30,000 within a response area of 120 square kilometers.

Part of protecting our community is making sure we have the tools to do the job. Each year we use a significant portion of our capital budget to upgrade or acquire new tools and equipment. We also use funds from our operating budget to ensure we can meet the demands on our service.

In 2015, we spent \$32,000 upgrading our portable radios and breathing air cylinders. We also invested \$26,000 in new equipment including computer equipment, an off-road rescue trailer, training mannequins and portable pumps and fire hose.

2015 also saw the implementation of a mobile data unit project where iPads were installed in each of our engines, ladder truck, and command vehicle. These iPads provide real-time mapping and routing, information on fire hydrant location, and also provide information on hazardous materials, weather, and many other features. We are committed to embracing new technology and best practices in order to ensure we meet our goal of providing a cost-effective service.

## Significant Fire Incidents

### February 15 – Beach Drive

Crews responding to this fire incident were challenged by blizzard conditions. Upon arrival the lone occupant had escaped and was sheltered in the cab of the fire engine. A fire in the Venmar air handling unit had caused the residence to fill with black acrid smoke. A quick knock-down of the fire prevented further damage.

### February 25 – Bradley Lake Road

Limited access caused by the heavy snow load made battling this residential fire exhausting for crews on scene. A second alarm and mutual aid for water supply was needed to bring this fire under control. There were no injuries but the home sustained significant fire damage.

### May 5 – Hampton Road

Engine 2 reported an orange glow in the sky as soon as they left the station responding to this fire incident. The attached garage and loft were fully involved in fire upon our arrival. An aggressive fire attack using large volume hose lines prevented the fire from spreading further into the residence and limited the overall damage.

### September 7 – North Street

A family of four safely evacuated this residence after being woken by their properly functioning smoke alarm. Crews battled a fire in the basement while Quint 1 was used to perform vertical ventilation and a search for fire extending into the roof.

**August 6 – School Avenue**

This intentionally set fire spread from a porta-potty, to bags of recycled rubber pellets, to two portable classrooms before being stopped. Environmental concerns regarding toxic smoke and water run-off required area residents to shelter in place until the incident was brought under control.

**August 30 – Model Farm Road**

This stubborn blaze travelled up an exterior wall and into the attic space making access difficult and conditions dangerous for fire department personnel. Crews were on scene for several hours before the fire was deemed under control.

**October 10 – Ryan Drive**

A planned open house during Fire Prevention Week at Station 1 was cancelled when crews responded to this residential fire in French Village. After extinguishing the fire, crews rescued four cats and resuscitated a fifth kitten that was not breathing. One occupant was transported to hospital by EMS after suffering from smoke inhalation.

**October 12 – Damascus Road**

An electrical short circuit caused this fire which resulted in extensive damage to a mini-home and a vehicle parked in the driveway. Fortunately, all occupants were able to escape but the content loss was significant.

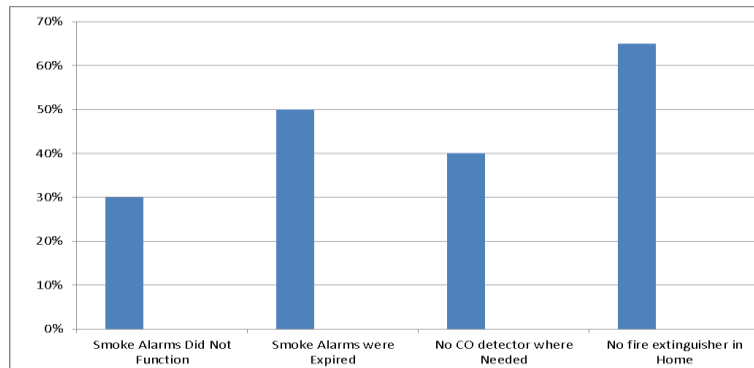

## Prevention

In mid-2015, the Kennebecasis Valley Fire Department introduced its HomeSafe program which includes conducting free home fire safety inspections and doing door to door smoke alarm campaigns in conjunction with the Alarmed and Ready campaign held by the Office of the Fire Marshal. This is a free program offered by your fire department and is designed to help make you more safe at home. Our recommendations can help prevent a fire or increase your chance of survival if one does happen. After completing just over 20 inspections in homes throughout the Kennebecasis Valley last year, certain issues were found in the majority of homes. Of the 37 topics we cover in a home inspection, the following were found most frequently:

- Smoke Alarms Did Not Function - either a dead battery or faulty alarm meant that the smoke alarm did not work at all. Smoke alarms play a vital role in increasing your chance of survival in a fire.

- Smoke Alarms Were Expired - This is still surprising to many, but smoke alarms will expire. Smoke alarms generally have a limited life of no more than 10 years. If an expiry date is not visible on the alarm, it is probably nearing 10 years old and should be replaced.
- No Carbon Monoxide Detector - If you use fuel burning appliances, have an attached garage, or if there is any other potential source of carbon monoxide (CO), you should have a CO detector. CO is a colourless, odourless, and tasteless gas that can poison you and your family with symptoms that can mimic the flu.
- No Fire Extinguisher In The Home - The Canada Safety Council recommends that you have at least one fire extinguisher in your home. What type, size, and where to locate one is something we can assist with during a home inspection.

## Preparation

The firefighters of the KVFD need to know how to fight fires, respond to medical emergencies, perform auto extrication, and respond to water and remote rescues. We also get called for downed power lines, flooded basements, and many other varied requests for service.

In order to be ready to respond to all the things we get called for, our firefighters need to keep learning and training.

In 2015 our firefighters spent seven days training at a vacant house in Quispamsis practicing things like hose advancement and searching for victims in a smoke filled environment. In November, we also had the Mobile Burn Unit here from the Nova Scotia Fire School. This unit simulates a fire environment and our firefighters spent a week practicing in this unit. This unit is as close as we can get to simulating a real fire environment.

Crews conduct a size-up of the fire, advance hose lines into the unit while breathing air, search for victims, and actually extinguish fire while inside.

Our firefighters also spent time training on off road rescue, ice rescue, forcible entry, and many other training topics.

In addition to protecting the public we serve, we also need to be able to protect our own firefighters as well. Last year, we also added what is known as a “RIT Pack” that is a portable air supply used to help save our own firefighters if they ever run low on air inside a fire. This air pack is kept in the command vehicle and is available at all of our fire scenes. In 2015, our firefighters spent many hours training with the RIT pack and performing drills to enhance their teamwork.

## Public

From our open house and firefighter for a day contest to visiting schools, attending holiday events, and more, we enjoy spending time with our community outside of times when you need us in an emergency. In 2015, we hosted 29 tours of our fire station and visited 76 events in the community.

*Thank-you for all your kind and professional service. My recovery from my car accident is slow but I am so grateful for what you have done.*

**Gilbert**

**Cycling Circles for KIDS with Cancer**

Friday August 28, 2015  
7 am to 7 pm  
Atlantic Superstore, 115 Campbell Drive Rothesay NB

Please come by or Doug Barrett from the Kennebecasis Valley Fire Department and Shelley Wood; 2015 Sears National Kids Cancer Ride National Rider, will cycle around a display of fire engines for 12 hours in support of the Lions Sick Children's Fund and the Coast to Coast Against Cancer Foundation.

Firefighters will be accepting donations and hosting a BBQ

Lions club will be selling tickets on a 40" Samsung TV

Atlantic Superstore, Kennebecasis Valley, Scotiabank

www.searsnationalkidscancerride.com • www.ctcaf.org

Just wanted to say thank-you very much for taking the time to inspect our car seats. We really appreciate your time and care -- I feel so much better!  
Thanks again,  
Heather

Muscular Dystrophy

Local 3591 members partnered with Jeff Sparks and his “Walk for MD” campaign with a live concert featuring local bands at the Fairvale Outing Association and our Union Hall.

Canadian Breast Cancer Society

In October, our members wear Pink T-shirts for one complete rotation. Annually, the IAFF campaign raises money and awareness for a cure across North America.

Charitable Society

Throughout the year, our members engage in several fundraising events to raise funds for local charities and citizens in need of support. This year, our annual Road Toll held in July raised approximately \$4500.00 that went back to the people we serve.

Christmas Family Fund

Our annual Christmas Program was one of the largest ever. This year, we were able to support approximately 110 families in our communities. We are able to provide food and toys to families who are unable to give their family a Christmas they deserve.

Recognition Night

Local 3591 hosts an annual banquet each fall to recognize and show appreciation for the efforts put in by our members throughout the year. We also recognize the Union career of retirees and Years of Service Awards to the IAFF. 2015 retirees were Brother George Cole, and Brother Paul Broderick.

## FIRE DEPARTMENT

## 2015 ANNUAL REPORT

### Girls Can't Do What? KV Fire Department Gives Girl With Autism and Her Service Dog a Private Tour

*Taken with permission from Go Team Kate  
www.goteamkate.com*

Kate's autism is not the first thing you'll notice about her. You'll notice her striking blue eyes, her penchant for superheroes and her love of being with people. Kate is busy with very little down time so when she decided recently that she wanted to make videos to teach people about important topics, I was quick to help her out. She made a video about sharing, not hitting and unfortunately a short video of what she remembers of her birth.

Most recently Kate decided to make a video about Fire Fighters (I told you she was into super heroes). This video made its rounds on social media and came to the attention of Michael Boyle, Platoon Chief at the Kennebecasis Valley Fire Department. He quickly reached out and asked if Kate would like to come for a Fire Station visit! Does Spiderman spin webs? Do the Ninja Turtles love pizza? YES, of course we would love to come visit the station.

You see, Kate was a firefighter for Halloween and her autism service dog, Oakley, was her "Fire Chief". Her sister was an "evil twin" with her bestie but prefers to stay off camera for the most part. (Trust me, she was equally adorable). As we set out to make our rounds we

were lucky enough to see a KV Fire Department truck drive by, and guess what? They spotted Miss Kate and pulled over so she could jump in for a quick visit. She then talked about that visit the whole way around the neighbourhood. Her Sunday visit to the station couldn't come soon enough. Check out these photos of Halloween night before we get to the good stuff below.

After the excitement of Halloween we were hopeful that Kate might sleep in a little later than her usually 6:00am. We were in luck; she slept in until 6:08am. Anyway, she was too excited to sleep because today was the day she was going to the Fire Station. Off we went for a private tour. The firefighters all came out to greet us and show us around the station. Kate and Grace were V.I.P's (even if Grace was too shy to leave my side).

It was especially fitting that Firefighter Karen was there to take the lead on our tour to further encourage Kate that girls could be firefighters. This visit has done more for us than just allow a little girl the thrill of sitting in a fire truck. It has reminded us that our firefighters are community helpers in more ways than one and it has reminded us that girls rule! So, thank you KV Fire Department. From all of us, thank you!
