

2016 Annual Report

For 92 years this fire department has existed to provide for the residents of the Kennebecasis Valley. From a volunteer department with a small chemical truck to the fire department we are today, we still serve the same purpose – keeping you safe and being active members of our community. Not only do we fight fires but also respond to accidents, on and off-road rescue, medical emergencies, and water rescue on ice and open water.

Our vision is to be recognized as a first-class fire service that protects people and property contributing to the prosperity of the communities in the coverage area.

Our mission is to protect people and property by ensuring public safety and efficient fire protection and prevention.

Our goal is to ensure that facilities, services and personnel provide safe, superior and cost-effective fire services and emergency response tailored to the needs of the coverage area.

Fire Department

2016 Annual Report

Message from the Fire Chief

While I was surveying the damage at one of our emergency incidents this year, I overheard a bystander remark about how “lucky” we were that the outcome was not much worse. I agreed that the outcome could have been worse, but I didn’t feel that luck had anything to do with it.

The Roman philosopher Seneca said that “luck is what happens when preparation meets opportunity”. In 2016, members of the Kennebecasis Valley Fire Department participated in training sessions totaling over 14,000 staff hours of combined training. This diligent preparation gave us the opportunity to save over \$38,000,000 of assessed property value at the twenty-seven dollar loss fire incidents we attended.

Our department also helped 210 homeowners be prepared for an emergency through our HomeSafe program and door-to-door smoke alarm campaign. You can increase your chances of being “lucky” if a fire occurs in your residence by having a working smoke alarm on every level of your home and practicing a home escape plan. The importance of “making your own luck” is dramatically emphasized by Jake Palmer’s story which we’ve included in this report.

As we look forward to 2017, let us not confuse good fortune with good luck. I am very fortunate to represent the committed men and women of this fire department. I am very fortunate to have the support of the Joint Board of Fire Commissioners and the Councils of Rothesay and Quispamsis. The thing about luck is that the harder you work the more of it you seem to have. If this is true, I know that the KVFD will get “lucky” again in 2017.

Please enjoy reading and learning more about the KVFD. If you have any questions or concerns, please feel free to contact me at 848-6649 or by email at kvfireland.kvfd@nb.aibn.com.

Bill Ireland – CFO, Fire Chief

Our Members

The Kennebecasis Valley Fire Department responds to over 1000 calls annually and participates in dozens of community events each year. Our firefighters, volunteers, command and administrative staff make this possible.

In 2016 we had two long-serving members retire and also welcomed new faces into the department.

BOARD OF FIRE COMMISSIONERS

Chair – Roger Young
Vice-Chair – Brian Shanks
Treasurer – Kirk Miller
Robert McIntyre
Sean Luck
Grant Brenan
Deb Armstrong
John Jarvie

ADMINISTRATIVE STAFF

Bill Ireland, Fire Chief/CEO
Carlene MacBean, Executive Assistant
Corinne Carpenter, Accountant

COMMAND STAFF

Dan McCoy, Deputy Fire Chief
Kevin Clynick, Platoon Chief
Michael Boyle, Platoon Chief

CHAPLAIN

Chaplain Bruce Smith

Retirements

Captain Paul Thompson served for 36 years as a member with this department, 2 as a volunteer and 34 as a career firefighter. Paul was promoted to Lieutenant in 1993 and then promoted again to Captain in 2000. Paul retired in March of 2016.

In August, Captain Mark McCully retired after serving 42 years with this department, 12 as a volunteer and 30 as a career firefighter. Mark is pictured here with his son Matt who has followed in his footsteps as a career firefighter with our department.

Promotions

Lieutenant John Codling was promoted to Captain

Lieutenant Jim Leblanc was promoted to Captain

Senior Firefighter Shawn White was promoted to Lieutenant

Senior Firefighter Paul Nixon was promoted to Lieutenant

Firefighter Roy Chase was promoted to Senior Firefighter

Firefighter Mike Nixon was promoted to Senior Firefighter

Holiday Relief Firefighter Nathan Ashfield was promoted to Full-Time

Holiday Relief Firefighter Justin Cowan was promoted to Full-Time

Tom Heffernan was hired as Holiday Relief Firefighter

Stephanie Henderson was hired as Holiday Relief Firefighter

Dani Cates was hired as Holiday Relief Firefighter (Term)

Geoff Gregg was hired as Holiday Relief Firefighter (Term)

Station 1 – Rothesay

Captain John Codling

Public

We could not exist as a fire department without the support of the public we serve; and this does not only mean how we put your tax dollars to good use. It also includes the support of the community by including us in their special events, supporting the Christmas program, and even dropping off treats and baked goods for firefighters working through the holidays.

Our firefighters were invited to block parties, church fairs, marathons, and children's camps. We also attended the International Mud Day event in Quispamsis and the Renforth Wharf Days in Rothesay as well as Canada Day festivities in both towns.

Many of our special events, including our retirement ceremonies, have music provided by the Kennebecasis Pipes and Drums and we are grateful for their continued support.

The Kennebecasis Firefighters Union was invited to participate in the 2016 Telus Cup where members volunteered their time to provide medical coverage for the event.

We would like to give special thanks to the Island View Lions Club, who held a fundraiser to purchase an automatic defibrillator for the command truck used by our Platoon Chiefs.

Protection

We exist to keep you safe. Part of doing this is making sure we have the best tools to do the job. Each year we use a significant portion of our capital budget to upgrade or acquire new tools and equipment. We also use funds from our operating budget to ensure we can meet the needs of our community.

In 2016, our most significant investment was the purchase of a new size of fire hose and a new type of nozzle; the smooth bore nozzle.

As the construction and contents of our homes change, we are finding that fires burn faster than they did in the past. In fact, modern homes burn 8 times faster than they did 50 years ago. The best way we can control a fire is to get lots of water on it, and fast.

The smooth bore nozzle gives us the amount of water and reach we may need with different types of fires. With this new hose and nozzle type, our firefighters now have several different options for attacking a fire – and saving your home.

This new hose, which at an internal diameter of 2 inches is slightly larger than our standard fire hose, gives us the advantage of lots of water and maneuverability. The weight of some larger size hoses makes them harder to move around and reposition while smaller fire hose may not deliver the amount of water we need.

Significant Fire Incidents

February 6 – Lila Court

A garage fire next to a home in Rothesay was knocked down quickly by firefighters in frigid temperatures. The home was saved and suffered no damage.

February 7 – Rafferty Court

Less than 24 hours after the Lila Court fire, crews responded to a small home in Quispamsis for a fire that originated from a woodstove. Police had to evacuate the homeowner prior to the arrival of fire crews.

April 3 – Old Mill Lane

Crews arrived to find a detached garage fully involved in fire during the early morning hours of April 3rd. Initial concerns were about saving the home and neighbouring home due to the intense heat from the fire. Firefighters were able to knock the fire down quickly leaving both homes with only minor exterior damage.

June 12 – Legend Lane

An almost identical fire to Old Mill Lane, a shed fire next to a home challenged firefighters to save the house. While the exterior had damage, the inside of the house was saved.

November 13 – Marianne Drive

A family with young children escaped this fire that started in the attached garage of this home. Firefighters were able to extinguish the fire before it extended into the home.

December 6 – Riverview Avenue

The lone occupant of this home barely escaped this fire that destroyed this nearly 80 year old home. See more about this on page 23, "Jake Palmer's Story".

Prevention

In 2016, we remained focused on effective and efficient fire prevention by continuing with our newly developed HomeSafe and other existing programs as well as embarking on new initiatives.

HomeSafe

We continued with our voluntary home inspection program and visited nearly 30 homes in 2016. We also conducted a smoke alarm campaign in March and visited over 180 homes to either speak to homeowners about smoke alarms or leave literature for those who may not have been home. We handed out 26 smoke alarms and 8 carbon monoxide alarms during this specific campaign.

Child Car Seat Clinic

As part of our service that includes installing car seats, we held our first ever car seat clinic in the fall of 2016 during Child Passenger Safety Week. During the clinic our CPSAC certified Children's Restraint System Technicians installed 16 car seats.

Public Visits

We continued our tradition of visiting several public events. In 2016 we participated in over 50 public events including block parties and other community events. We also provided over 30 tours of our fire stations.

Fire Prevention Week

Each year we participate in fire prevention week and in 2016 the theme was "Don't Wait – Check the Date" with an emphasis on replacing smoke alarms every 10 years. During fire prevention week we visited different locations spreading the fire prevention message and held our annual Fire Department Open House.

Firefighter for a Day

Our Firefighter for a Day winner for 2016 was Reegan Kaye from Chris Saunders Memorial Elementary School. Each year we hold a contest for grade 3 students where they must complete a home escape plan for their family.

Preparation

The firefighters of the KVFD need to know how to fight fires, respond to medical emergencies, perform auto extrication, and respond to water and remote rescues. We also get called for downed power lines, flooded basements, and many other varied requests for service. In order to be ready to respond to all the things we get called for, our firefighters need to keep learning and training.

We began the year by practicing the “Pittsburgh Drill”. This is a timed drill where firefighters must locate and remove a victim with limited visibility through an obstacle course. This drill helps develop SCBA confidence and teamwork.

Throughout the summer months much of our training activities were focused on getting our new recruits prepared to begin their careers. They trained on every aspect of being a firefighter with the Kennebecasis Valley Fire Department.

In the fall, each platoon of firefighters trained on various aspects of firefighting at the Saint John Fire Department training tower. Training topics included fire attack, search and rescue, hose line advancement and standpipe hookup.

Our members also went through first responder medical training to help us improve the medical care we deliver.

#22pushupchallenge

While there are many internet trends that take place each year, the “#22pushupchallenge” is one with significant meaning for first responders. Some members of our department took up the challenge and committed to doing 22 push-ups every day for 22 days. Each day the picture or video was accompanied by the following message posted on social media:

“22 Push-up Challenge for veteran and first responder PTSD and suicide prevention awareness: Everyday 22 of our vets/first responders takes their own lives. This is simply unacceptable. So to raise awareness, I will do 22 push-ups every day for 22 days - that's the pledge”

Kennebecasis Firefighters Charitable Society

Throughout the year, our members engage in several fundraising events to raise funds for local charities and citizens in need of support. This year, our annual Road Toll raised approximately \$10 500 that went back to the people we serve.

Canadian Mental Health Association of New Brunswick

In October, the Kennebecasis Firefighters went up against the Kennebecasis Regional Police Force in the first ever “Soccer in a Bubble” fundraiser. This event raised a total of \$2000 for the Canadian Mental Health Association of New Brunswick.

Canadian Breast Cancer Society

In October, our members wear Pink T-shirts for one complete rotation. Annually, the IAFF campaign raises money and awareness for a cure across North America.

Christmas Family Fund

This year, we were again able to support families in our community by providing food and toys to families who are unable to give their family a Christmas they deserve. We also escorted Santa Claus during the annual KV Christmas parade and collected donations for our Christmas program along the parade route.

Bobby's Hospice

In support of Bobby's Hospice, our members hosted two of their Summer Barbecue Fundraisers.

The Salvation Army

Each year our members spend a day volunteering for the Salvation Army Kettle Drive and this year helped raise \$1400.

Recognition Night

Local 3591 hosts an annual banquet each fall to recognize and show appreciation for the efforts put in by our members throughout the year. We also recognize the union career of retirees and Years of Service Awards to the IAFF. The 2016 retirees were Brother Mark McCully and Brother Paul Thompson

KENNEBECASIS FIREFIGHTERS
CHARITABLE SOCIETY 

Fireground Incident Technicians

The Fireground Incident Technician is a volunteer position that supports fire ground operations by supporting command staff with accountability, the role of a Chief's aide, and air management

Our 2016 Fireground Incident Technicians were:

Mark Braydon
Ed Gaynes
Brandon Ferguson
Stephen Noseworthy
Hayley O'Brien
Matt Snelgrove
Aaron Stewart
David Dickeson
Matt Gesner
Andrew MacPherson
Liam Murphy

“I didn’t do a single thing right” - Jake Palmer’s Story

On December 6th, Jake Palmer learned many valuable lessons.

It started as a normal evening for Jake and ended with a life changing event and he has allowed us to share his story.

After returning home in the early evening, Jake smelled smoke and heard his upstairs smoke alarm sounding. Assuming it was a problem with his wood burning insert he removed the battery from the smoke alarm and checked around the insert but couldn’t find anything.

Unbeknownst to Jake, the smoke was coming from a fire caused by an electrical problem in the basement and it was smoldering in a floor joist downstairs.

After spending the evening sleeping in the living room, Jake went upstairs to bed around midnight. He awoke to what he thought was his cellphone alarm, but then realized it was his smoke alarm going off.

The fire had broken out through the floor and into the living room below. Jake opened his bedroom door and made his way downstairs through the smoke and escaped through the kitchen and outside. Once outside a window broke out and the fire began to quickly spread.

Although firefighters were able to respond to the scene in minutes, when they arrived the house was completely engulfed in flames.

The lessons that came out of this story for Jake, and apply to all homeowners include:

- Develop and practice a family escape plan
- When you smell smoke in your home, call 911
- Have working smoke alarms on all levels of your home and in sleeping areas
- If your smoke alarm is going off, check the door for heat; if it’s hot, find another way out

Jake allowed his story to be shared by us and by the media, and we appreciate his open and candid remarks about his actions that night.

Center for Public Safety Excellence – Accreditation

In 2016, the Kennebecasis Valley Fire Department took the first steps in the long road to become an accredited agency with the Center for Public Safety Excellence.

What is "Accreditation"?

Accreditation is a comprehensive self-assessment and evaluation model that enables organizations to examine past, current, and future service levels and internal performance and compare them to industry best practices. This process leads to improved service delivery.

This process allows fire and emergency service agencies to compare their performance to industry best practices in order to:

- Determine community risk and safety needs and develop community-specific Standards of Cover.
- Evaluate the performance of the department.
- Establish a method for achieving continuous organizational improvement.

Local government executives face increasing pressure to "do more with less" and justify their expenditures by demonstrating a direct link to improved or expanded services. The accreditation process provides a well-defined, internationally-recognized benchmark system to measure the quality of fire and emergency services.

In May of 2016, Chief Bill Ireland and Platoon Chief Mike Boyle attended the "Quality Improvement through Accreditation" workshop in Mississauga, Ontario. In November, Platoon Chief Boyle completed the Peer Assessor workshop and is now a Peer Assessor with the Center for Public Safety Excellence.
