# 2019 ANNUAL REPORT

## **COURAGE. COMPASSION. COMMITMENT.**

2019 was another year of change for the Kennebecasis Valley Fire Department. A new fire engine, new equipment, and a significant improvement in mental health programs are just some of the changes that took place last year. Over the next several pages take a look back at what 2019 was like for us.

The Kennebecasis Valley Fire Department...ready when you need us.

2019

### OUR STAFF

Our staff consists of 40 firefighters including 12 "company officers" which includes senior firefighters, lieutenants, and captains. The management structure includes the fire chief, deputy chief, two division chiefs, executive assistant to the fire chief and finance administrator.

### OUR VISION

To be recognized as a first-class fire service that protects people and property contributing to the prosperity of the communities in the coverage area.

### OUR SERVICES

- Fire Suppression
- Medical First Response
- Vehicle Extrication
- Low-angle Rescue
- Water Rescue
- Ice Rescue
- Fire Prevention Education
- Fire Investigation
- HomeSafe Inspections
- Civic Signs
- Mutual Assistance
- Child Car Seat Installations
- Station Tours

# MESSAGE FROM THE CHIEF

I have noticed a trend in my fire chief's message year after year, and that is the continuous improvement of our fire department.

And, 2019 was no different.

Like in recent years, 2019 has been a year of progress for us as a fire department. In cooperation with the Kennebecasis Firefighters Union, we launched our Joint Mental Health Initiative, with the goal of keeping our firefighters mentally safe and healthy. In addition to our existing mental health resources, we have implemented response policies built around supporting our firefighters after stressful incidents and issued each firefighter a mental health "challenge coin", which you can read about in this report.

Through agreement with the Office of the Fire Marshal, our fire inspection program finished its first full year as an active program and we inspected over 100 commercial occupancies in our communities to help keep residents safe and protect the properties of business owners.

We also invested in our capability to fight fires and allow firefighters to do their jobs better by upgrading some of our face pieces for the breathing packs firefighters wear with specialized thermal imaging cameras and added a new fire engine to our fleet.

While we have made ourselves better year after year, we have a new opportunity for progress and improvement as we move forward with the accreditation process through the Commission on Fire Accreditation International. We have set the goal of earning the status of an accredited fire department by 2022, a goal that has been achieved by fire departments across North America and includes departments in Ontario, Alberta, and British Columbia. The small first steps we have taken in 2019 will lead us into the future as we always strive to be better tomorrow than we are today.

Finally, while we said goodbye and good luck to long term and valued members, we also welcomed new faces and promoted some of our existing members into new positions.

I would invite you to look back at what 2019 was like for us.

  
Bill Ireland  
Fire Chief

# PEOPLE

It is our people that make the Kennebecasis Valley Fire Department the great fire department that we believe it to be. The Kennebecasis Valley Fire Department responds to over 1,000 calls annually and participates in dozens of community events each year.

The benefit (and sometimes challenge) of a small fire department is that many of our members wear many “hats” with some not only performing the role of a firefighter, but also fire inspectors, fire instructors, life safety educators, and car seat technicians.

# RETIREMENTS

On Wednesday, July 31<sup>st</sup>, we celebrated the retirement of Corinne Carpenter, Finance Administrator, who had been with the department for five years.

On Friday, July 12<sup>th</sup>, we celebrated the retirement of Division Chief Kevin Clynick who worked for 35 years in the fire service; 30 with the Saint John Fire Department and 5 with the Kennebecasis Valley Fire Department.

# PROMOTIONS

Shawn White was promoted to Division Chief.

Grant Graham was promoted to Lieutenant.

Paul Spinks was promoted to Senior Firefighter.

Shane Johnson was promoted to Senior Firefighter.

Shane Day was promoted to Senior Firefighter.

Ron Catchick was hired as the Finance Administrator.

Chris Mason was promoted to full time firefighter.

# PUBLIC EDUCATION AND PREVENTION

## JUNIOR FIREFIGHTER CAMP

Our Junior Firefighter Camp ran for its second year in 2019. 17 children, between the ages of 10 and 12, spent three days learning about smoke alarms, home escape planning, hands-only CPR, safe cooking, and about many aspects of firefighting.

## ELEMENTARY LITERACY

2019 marked our third year in partnering with Elementary Literacy Inc. to hold a reading contest for children. This contest encourages grade 2 students to read at least 20 minutes a day over a two-week period with the winning class taking a trip to the fire station for a pizza party and reading time with firefighters.

## We're here for you.

There was a fire in your area. While this is fresh in all of our minds we encourage you to check your smoke alarms for proper operation and expiration dates. If you have any questions, or have interest in our "HomeSafe" program please contact us.

## POST FIRE AWARENESS PROGRAM

In 2019 we launched our "post-fire" awareness program. After a significant fire in an area, firefighters will visit nearby homes with information for residents about the importance of smoke alarms and home escape planning.

## **FIRE PREVENTION WEEK**

Each year we participate in fire prevention week and in 2019 the theme was "Not every hero wears a cape. Plan and Practice your Escape" with an emphasis on home escape planning. During fire prevention week we had a display at Sobey's Rothesay to spread the fire prevention message and held our annual Fire Department Open House.

## **CHILD CAR SEAT INSTALLATION**

Our Child Passenger Safety Association of Canada certified Children's Restraint System Technicians installed 190 car seats in 2019 and a car seat clinic was held in the summer.

## **PUBLIC SITE VISITS AND EVENTS**

We continued our tradition of visiting several public events. In 2019 we participated in 53 site visits including block parties and other community events. We also provided 20 tours of our fire stations.

## **FIREFIGHTER FOR A DAY**

In January of 2020, we welcomed our 2019 winners of our "Firefighter for a Day" contest. Throughout the fall presentations were made on fire safety to all grade three classes in KV and children were encouraged to draw their family home escape plan. The best plans were chosen and a winner was selected from each school to visit the fire station.

# FIRE SAFETY STANDARDS AND ENFORCEMENT

2019 marked the first full year of the department's fire inspection program, in cooperation with the Office of the Fire Marshal.

Certified fire inspectors completed 101 inspections on commercial properties throughout the valley including restaurants, businesses, liquor establishments, and apartment buildings.

The department currently has six inspectors who are certified as level one inspectors through the National Fire Protection Association and are appointed as fire prevention officers by the fire marshal. Three more firefighters are in the process of finishing up their training to become fire inspectors.

In 2019, firefighters completed safety inspections on nine homes in the Kennebecasis Valley, as part of our free home safety inspection program.

# EMERGENCY RESPONSE

## TRAINING

Our firefighters train on everything from structure fire response to technical rescue, to medical training. Firefighters spend time training in the classroom, outside, at training towers, and on the water. Company officers took part in incident command training (ICS-200) along with staff members from Rothesay and Quispamsis.

In the summer, firefighters took advantage of a home slated for demolition to train on fire attack, search and rescue, ventilation, and many other aspects of a structure fire response.

And in the fall, firefighters spent time doing refresher training on off-road and slope rescue.

## **PARKLAND IN THE VALLEY EMERGENCY EXERCISE**

In May, the department participated in a large-scale exercise with Parkland in the Valley. A simulated fire in a unit at Jubilee Hall required Parkland staff to implement their emergency plan and firefighters simulated a response as if the building had a fire in it.

Both firefighters and Parkland staff members participated in a briefing before the incident and in an after-action review when it was completed.

The exercise allowed for nurses and other Parkland staff members to practice their emergency plan and coordination with the fire department should there ever be a fire in the building.

## **INTEGRATED THERMAL IMAGING CAMERA**

Thermal imaging cameras have been used by the department for many years; these specialized devices allow for firefighters to “see” through smoke and darkness. In 2019, we upgraded five of our face pieces to the Scott Sight integrated thermal imager, helping our firefighters fight fires and conduct searches in the dark, smoky environment of a fire.

## EMERGENCY SCENE SIGNS

A danger that many people do not think of is when firefighters are working at an accident scene on a highway. Firefighters and other first responders are too often hurt or killed by inattentive drivers who pass by accident scenes. As part of a change in policy that includes reflective vests and apparatus blocking, firefighters have begun deploying these accident scene signs when working on the highway.

## ENGINE 2

The department took another step forward this year in upgrading its frontline firefighting apparatus with the addition of a new Engine 2.

This truck, a 2019 Spartan built by Dependable Fire Trucks, has a 1250 gallon per minute pump, carries 1000 gallons of water, and carries equipment for fires, car accidents, medical emergencies, and all of the other types of emergencies we respond to as a fire department.

# SIGNIFICANT INCIDENTS

## SPRING FRESHET – April/May

For the second year in a row, a spring freshet impacted Rothesay and Quispamsis from late April into early May with water levels exceeding flood levels in areas of the valley. In addition to the preparation made by the fire department, the Canadian Armed Forces assisted with preparing sandbags and checking on residents.

## OFF ROAD VEHICLE ACCIDENT – May 2<sup>nd</sup>

In May, firefighters along with police and paramedics were dispatched for an accident involving an ATV in a wooded area in French Village. A lone male was found deceased at the scene.

## CHAMBERLAIN ROAD FIRE – May 15<sup>th</sup>

Reports of a possible victim in the basement of a home on fire in Quispamsis resulted in a tense start to the incident for firefighters. On arrival, firefighters encountered fire and heavy smoke in the home. Initial reports indicated that there

may have been someone trapped in the basement however after searching the home firefighters confirmed that the house was empty. However, they did find the family dog which had perished in the fire. The home had significant smoke and fire damage.

## **MCKAY HIGHWAY ACCIDENT – October 7<sup>th</sup>**

A high-speed police chase led to an accident where two people were seriously injured and sent to hospital. Firefighters were dispatched for an accident on the highway and assisted paramedics with two critically injured patients and one with minor injuries.

## **VINCENT ROAD FIRE – December 13<sup>th</sup>**

Smoke alarms alerted a family of three to a fire in their basement early Friday morning. Around 3:30 am, a fire started in the basement of a home on the Vincent Road in Quispamsis. Working smoke alarms gave the family time to escape the fire without injury. When firefighters arrived, there was fire in the basement of the home that had extended into an upstairs bathroom and they were able to extinguish the fire quickly. There was fire damage to two rooms and significant smoke damage throughout the home.

# JOINT MENTAL HEALTH INITIATIVE

In partnership with the Kennebecasis Firefighters Union, we were pleased to announce the launch of our Joint Mental Health Initiative. This initiative, with a simple goal of keeping our members healthy, has four main areas of focus including both preventative and reactive measures.

These areas include prevention (stigma, resiliency, education, workplace culture) emergency response (during and post incident), organizational crisis, and individual issues ranging from family issues to PTSD.

With support from our IAFF Peer Support members, our chaplains, Dr. Bruce Smith and Rev. Sally Budge, and members of our management team, the department is proud to support our members with this initiative. Throughout the month of February, the department delivered a “Road to Mental Readiness” refresher course to our members and had a presentation done by Michael Johnston, founder of Hope 4 Heroes Canada Inc., to discuss PTSD.

# PROJECT ALL IN

Every firefighter received a “Project All-In” challenge coin. These coins are simply another access point for firefighters to get help if they need it, in relation to work or family stress or any other mental health issues.

Firefighters who have the All-In coin can simply present to another member and a conversation is initiated. The recipient of the coin slide can be an active listener or start the conversation if need be. The coin may also be presented to a friend or family member.

More information on Project All-In can be found at [projectallin.ca](http://projectallin.ca).

“

*Having the coin in your pocket is a reminder that you can seek help, that there is support around you and that you don't need to suffer alone. After all, we are all in this together.*

*— Chad Guenter, Firefighter and All In Coin co-founder*

# MENTORSHIP

Each year, we host fire school cadets who are finishing up their training as firefighters from various fire schools and preparing for their careers as a firefighter.

We also host high school co-op students as part of a work placement for their high school courses and single day fire department orientations for students interested in firefighting as a career.

# CARDIAC ARREST SURVIVORS EVENT

On February 27<sup>th</sup>, Dan Cassidy went into cardiac arrest while playing in the Quispamsis Moosehead Oldtimers Hockey League at the qplex.

Thanks to an immediate reaction from the bystanders, including off duty firefighter Captain Jim Leblanc, Dan was revived in minutes.

Ambulance New Brunswick held a cardiac arrest survivor's event in Dan's honour in Quispamsis at the qplex where Captain Leblanc was recognized for his role in helping to save Dan's life.

# KENNEBECASIS FIREFIGHTERS UNION

**Kennebecasis Firefighters Charitable Society/ IAFF Local 3591**

Each year our members volunteer hundreds of hours of their time when off duty to give back to our citizens in need. Listed below are just a few examples of how your firefighters give back to their community. From fundraising to swinging hammers, your firefighters are here for more than emergency response!

## **Bobby's Hospice BBQ**

Every Friday throughout the summer months this great organization hosts a BBQ. We support this organization the best way we can by sponsoring a BBQ and manning the grills for a day or contributing in other fundraising efforts to help them support their patients and families.

## **Habitat for Humanity**

Donating all our collective volunteer hours from 2018 helped a family qualify for a new home through Habitat. We also helped the family move all their belongings into their new home with the donation of a cube van from Exit Realty.

## Community Assistance Initiatives

During the flood of 2019, our members helped many residents by transporting sand bags, piling and filling sandbags during our off time. Our training and profession teach us to help with water related incidents that we were able to give back to the community both on and off duty during this time.

## Christmas Family Fund

This year, we were again able to support our community by providing food and toys to 70 + families in need. We also escorted Santa Claus during the annual KV Christmas parade and collected donations for our Christmas program along the parade route. This initiative is only possible through the support of our community members, both individual and corporate. Thank you to everyone who supports this worthy cause to help give everyone in our community a good Christmas holiday.

Our members continue spend time attending conventions and training sessions hosted by the IAFF which focus on the health and wellness of our members as it pertains to the challenges associated with the dangers of our profession, both hidden and visible. Our focus remains to be topics such as cancer prevention/screening, peer support for mental wellness, and overall firefighter fitness. We also take the time each year at

our *Annual Recognition Night* to recognize those who serve our Union. This past year, we were honoured to recognize those who joined in 1998 and 1999 and past Executive Members who have been an integral part of making this Union what it is today. Thank you!
